Progression
<p>Geography integrates a number of subject areas and can be usefully combined with Science subjects, e.g. Biology, Maths, Computer Science, Physics or Chemistry; Arts subjects, e.g. Economics, Sociology, Philosophy, History.</p> <p>Degree courses such as Environmental studies, Geology, Engineering, Business Studies, Politics and Law. Careers where Geography A Level is an important qualification for Surveying, Banking, Teaching, Leisure and Recreation work, Landscape Architecture, Agriculture and Town Planning.</p>
Teaching and Learning and Assessment
<p>All students will study human and physical geography topics. In each area of study students will consider their own values and attitudes to the issues being studied and will support their learning of ideas through the study of specific case studies. Students will also develop a variety of geographical skills, which will broaden and deepen existing knowledge and allow them to work with a greater degree of independence. There are four units to complete over the two years.</p>
Entry Requirements
